the information connection

What If...

Your doctor prescribed a new medication for your mother, and you wanted to get more information about side effects.

You're applying to college or looking for a job and need to know what options are available to you.

You're about to buy a new car and you want to know its consumer rating. How does it measure up in terms of safety, price, and maintenance statistics?

You have a great idea for a business, but don't know where to start. You need information about competition, possible locations, sources of funding, suppliers, office furniture outlets, and advertising... just to name a few.

There Is A Complete Information Source Right At Your Fingertips – And It's As Close As Your Library.

We're part of the New Jersey Library Network, and we can provide materials and answers to your questions from a variety of libraries and collections across the state and the nation.

Here's How The New Jersey Library Network Can Help You.

Simply ask your library professional for the information you need or even just name the topic you're researching. Your request can be processed immediately.

Depending on what you need, you can expect to receive your information in a few minutes, a few days, a week, or in special cases, a bit longer. The information is then phoned, faxed, or delivered to you at your library.

There Is No Cost To You For This Service.

Your state and local tax dollars support these innovative services.

Let The New Jersey Library Network Open Up A World Of Information To You.

For further details, or to request information, ask your library professional.

The New Jersey Library Network is your information connection to books, magazine articles and answers to your questions from over 2000 libraries.

Need Information On Any Topic?

Answers from across the state and nation delivered to you here at your library!

Ask your librarian for details:
