All data presented herein are based on information available to and believed to be correct. No warranty, expressed or implied, is made regarding the results from the use of any data or material of our manufacture. The use of information herein is not intended to encourage violation of any existing patents.

CCS offers its products in bulk for manufacturing, processing, or repackaging only. The purchaser's finished product for end-use application, based on these components, may require compliance with applicable product regulations, including those promulgated by the United States Food & Drug Administration (see CCS's General Conditions of Sale). If you have not received, or if you require literature, Material Safety Data Sheets, and/or assistance regarding the proper use and handling of our products, these are available on request.
