- Purchase the same high-quality cosmetic nail products you previously ordered in bulk in individual packaged units bearing your own brand labels.
- Eliminate your need to schedule packaging operations and maintain package inventory.
- Add convenience by receiving your cosmetic products already packaged and ready to ship directly to your customers!
- Concentrate on marketing and distributing your products while shortening turn-around and delivery time.

Whether your needs are for acrylic powders, liquids, gels, or accessories, **EssPac** is eager to be your partner.

- Packaging options range from ¼ oz. to several pounds for powders, and from ⅓ oz. to several gallons for monomers, other liquids and gels.
- We can assist you in all aspects of package development, from choosing just the right container to creating the perfect label.
- Plus, we can ship direct to your facility or drop-ship anywhere in the world for you.
- Our new, state-of-the-art packaging equipment is designed to **handle a variety of flammable and hazardous materials**

A Host of Choices

- Although minimum packaging run volumes will apply, we can handle short runs for clients who require as few as 1000 pieces per order.
- Match or customize your current packaging with new containers.
- EssPac can include your own unique brand label on the containers or assist with creating new labels for your brand.

OR

- You can continue to receive your products in bulk as you always have, if you prefer.

With the creation of **EssPac**, your partners at Esschem and our affiliates are once more combining our leadership in innovation and manufacturing quality with excellence and convenience in customer service as well.
